## ***Titling of Assets***

Equally important for probate, disposition, income tax and estate tax purposes is how your assets are titled. We strongly recommend that you meet with a competent advisor(s) and review with them the following topics:

- ☐ Are your assets properly titled so they pass in the manner you want?
- ☐ Are your assets properly titled to minimize state & federal estate taxes?
- ☐ Are your assets properly titled to minimize the claims of creditors?
- ☐ Are your retirement plan's & IRA's primary & contingent beneficiaries correct?
- ☐ Are the correct persons named as owners & beneficiaries of your life insurance?
- ☐ Are there other titling issues that need to be correct?

### ***Military Retirement Benefits***

Unlike most retirement plans, the Armed Forces offer a pension (technically a “reduced compensation for reduced services”) with benefits that start the day of retirement. Many veterans of wartime service are completely unaware of the fact that, if they are 65 or older and on a limited income, they may qualify for a Veterans Disability Pension or a Veterans Pension without being disabled.

### ***Military Survivor Benefits***

When a military retiree dies, their retirement pay stops. This means that the surviving spouse will be left without a substantial income source. If you are a retiree, you need to give serious thought to how you can protect your spouse from the hardships caused by the loss of your retirement pay. One option available is the Survivor Benefit Plan. The SBP is an insurance plan that helps pay surviving spouses a monthly payment (annuity) to help make up for the loss of retirement income.

### ***My Stock Options / Stock Purchase Plans / Stocks***

A stock option gives the recipient (the "optionee") the right to buy a certain number of shares in the granting company at a fixed price for a certain number of years. Stock options are used both in private companies and public companies. A related type of plan is the employee stock purchase plan (ESPP), which is used mainly in public companies. An ESPP is a little like a stock option plan. It gives employees the chance to buy stock, usually through payroll deductions, over a 3- to 27-month "offering period." The price is usually discounted up to 15% from the market price. Stocks are shares in the ownership of a company issued to raise capital, also known as equities. As we all know, stock prices rise and fall.
